

CALL FOR PAPERS:
CROATIAN METEOROLOGICAL JOURNAL

We kindly invite you to submit the results of your research in the 56th issue of Croatian Meteorological Journal (CMJ).

The Croatian Meteorological Journal publishes papers in the field of meteorology and related sciences. Papers are in one of four categories: Original scientific paper, Preliminary contribution, Review paper and Professional paper. CMJ also publishes short press releases or comments on an issue and extended abstracts of doctoral thesis (both in Croatian and English).

Each paper undergoes a double peer review. Publication of papers in English is encouraged, but papers in Croatian are also welcome.

The updated detailed Instructions to authors are attached.

The paper submission deadline is August 31, 2022.

Paper should be submitted by an e-mail to the CMJ e-mail address: hmc@meteohmd.hr .

Please post the call on the notice board of your institution and feel free to forward the call to your colleagues interested in publishing the papers in the Croatian Meteorological Journal.

The Croatian Meteorological Journal is an annual publication, a continuation of the scientific journal *Discussions/Rasprave*, which has been published regularly since 1982, when the journal was a professional journal entitled *Discussions and Reviews/Rasprave i prikazi* (founded in 1957). In 1990 the Croatian Meteorological Society took over the issuance of the Croatian Meteorological Journal from the Meteorological and Hydrological Service of Croatia.

The journal is referred in several foreign databases: Scopus, Zugänge der Bibliothek des Deutschen Wetterdienstes, Geobase, Meteorological and Geostrophysical Abstracts, Elsevier/Geoabstracts and Abstracts Journal VINITI.

All issues of the Croatian Meteorological Journal (Discussions and Reviews/Rasprave i prikazi) can be freely accessed on <https://hrcak.srce.hr/>.

If you have additional questions, please contact us at hmc@meteohmd.hr.

Looking forward to receiving your papers!

Best regards,
Editorial Board
